## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/10/2006 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 9-13, 15, 21-25, 28-30, 33-35, and 37-44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant has claimed that the user engageable member is immovable by a muscular force. Examiner notes that this would seemingly correlate to the embodiment of figure 2, as the embodiment of figure 1 is connected to a chain which would allow some degree of movement by muscular force.

Art Unit: 3764

Applicant has also claimed a means for removably connecting the first and second end of the user engageable member, which seems to correlate to the embodiment of figure 1. It appears that features of the embodiments have been combined into an invention not disclosed in the specification. Appropriate correction is required.

***Response to Arguments***

4. Applicant's arguments with respect to claims 1, 9-13, 15, 21-25, 28-30, 33-35, and 37-44 have been considered but are moot in view of the new ground(s) of rejection.
